

# KPIT Accelerate Solution for Auto Ancillaries

Speeding up operations to achieve business excellence

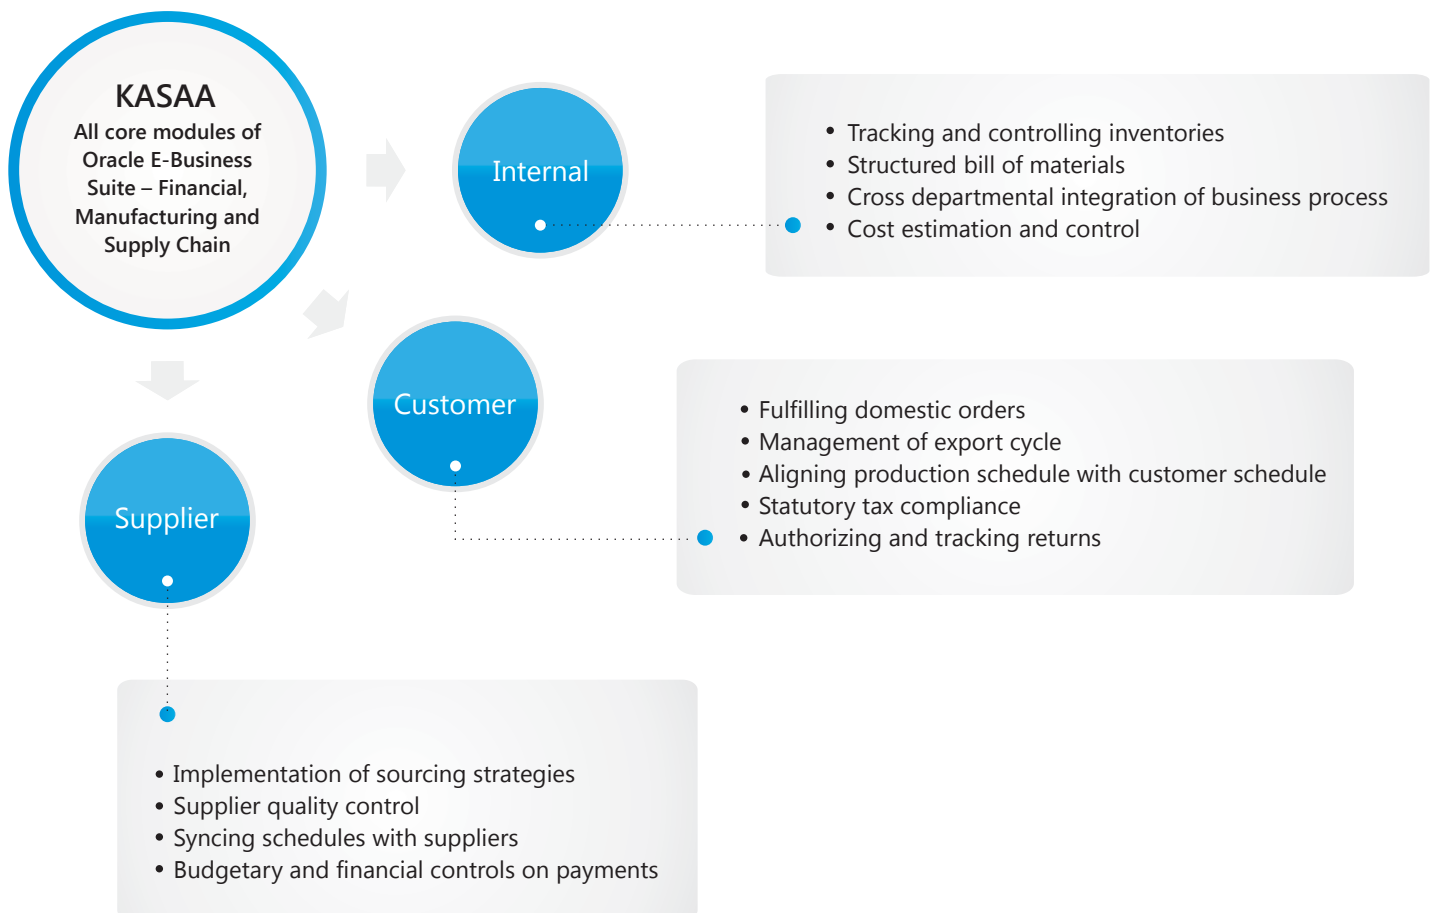

## KASAA – Operational Efficiency Guaranteed

Enterprise resource planning can go a long way in helping organizations streamline operations and save time and money. This holds true for companies in the auto ancillary industry which manage demand driven cycles, collaborate with customers & suppliers and maintain inventories. However, auto ancillary companies have their own challenges and needs and they require tailor-made ERP solutions. KPIT presents its Accelerate Solution for Auto Ancillaries (KASAA) that helps accelerate implementation of Oracle E-Business suite and

addresses operational challenges. KASAA aims at achieving high operational efficiency by addressing bottlenecks in manufacturing, supply chain (purchasing & sales) and management of financials which are common to auto ancillary firms. The solution is built keeping in mind – customer, supplier and internal perspectives.

## Solution Highlights

# Solution Benefits

- Plug and use: Pre-formulated business processes across Manufacturing, SCM and Financial business functions while mapping end-to-end scenarios
- Accelerated implementation: Standardized solutions with four phases which are managed within 16 weeks of implementation followed by four weeks of infant care support
- Reduced TCO: Solution covers all components of hardware, software and Oracle licensing coupled with accelerated implementation
- ERP Sustainment Model Guidelines: Provides guidance and framework to stabilize and sustain ERP within an organization
- Covering the white space: Ready-to-use 33 tools/utilities which are targeted for improving efficiency, compliance & collaboration within and outside the organization

"We congratulate KPIT for their achievement, and their commitment and investment in Oracle products and the Oracle PartnerNetwork programs."

- Lydia Smyers, Group Vice President,  
Worldwide Alliances & Channels Programs and Communications, Oracle
