

KPIT

Oracle Solutions from KPIT

For Manufacturing, Transportation, Automotive & Energy Companies

KPIT delivers a powerful combination of industry experience and Oracle knowledge to bring you unsurpassed expertise. Implementing business applications demands a fluid and comprehensive understanding of the business itself. Oracle knowledge alone is simply inadequate.

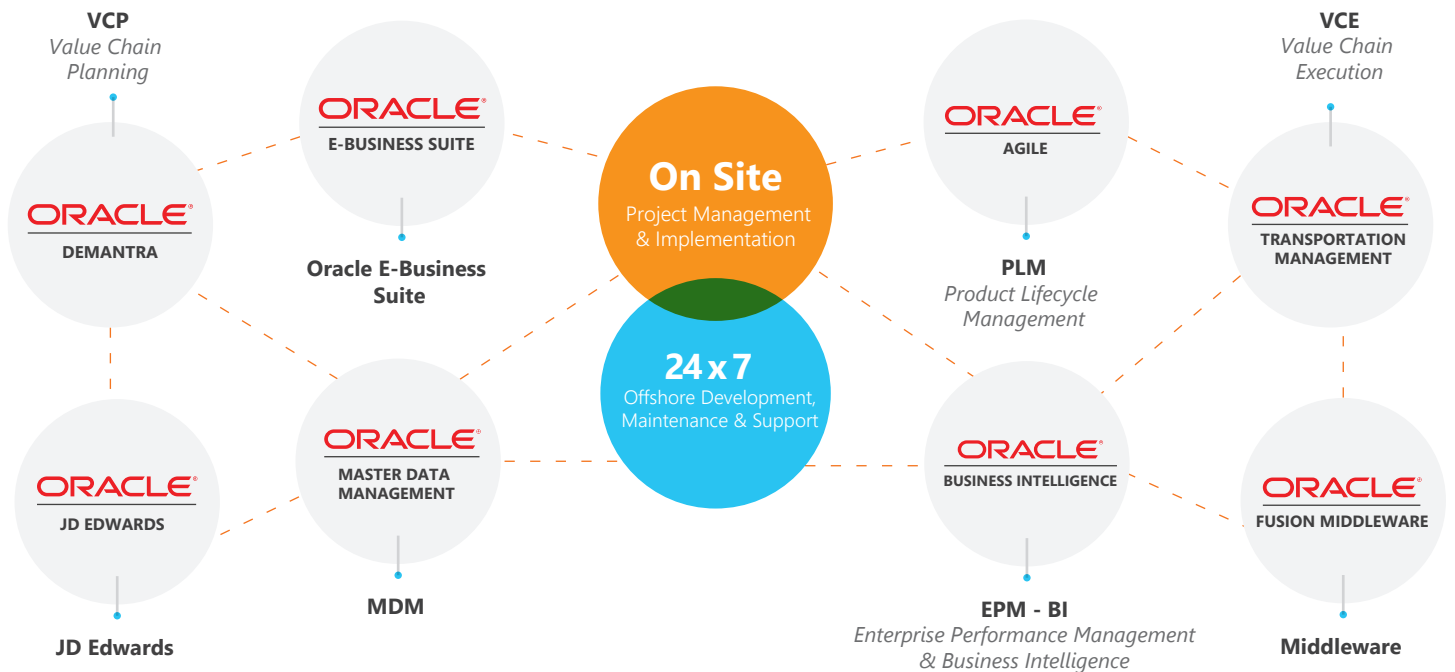

This is why we direct all our resources towards one goal:

Providing companies with manufacturing and distribution operations with world-class Oracle and process based solutions.

Our track record demonstrates the ability to help companies understand and apply the depth and breadth of Oracle's capabilities. Whether you need to improve **one process**, **implement** or **integrate applications**, or **transform your business to face the next set of competitive challenges**, turn to KPIT.

- Anamitra Roy
Chief Information Officer,
IFFCO

The fact that we do not come with any transportation management system usage experience, made it crucial for us to select a partner that knows the product well and understands the transportation space. KPIT winning team of OTM specialists was therefore an obvious first choice."

* 'Sourcing JDE Projects: Provider Skills Vary Widely', by Liz Herbert with Christine Ferrusi Ross and Elizabeth Rose, Forrester Research (Feb 18, 2010)

** Magic Quadrant for Oracle ERP service providers, North America, 2010, by Alex Soejarto and Susan Tan, Gartner Inc., 30 November 2010
